

Caitlin Chan Reynolds

(705) 991-0388 • caitlinchanreynolds@gmail.com • caitlinchanreynolds.vercel.app • Guelph, Ontario

PROFILE

Third-year Computer Science student at the University of Guelph with hands-on project experience in web and mobile development (Python, JavaScript, React Native) and strong record of leadership, communication, and community engagement. Hoping to specialize in IT/cybersecurity, and eager to bring a student's perspective to campus IT initiatives while learning more about IT service delivery and career pathways in the field.

EDUCATION

Bachelor of Computing – Computer Science | *University of Guelph*

Guelph, ON • 2024 – 2028

GPA: 82.063

Dual Credit Aviation Course | *Seneca College*

Peterborough, ON • 2023

PROJECTS

- **Digital Closet (In Development)** – Cross-platform mobile app to photograph, catalog, and organize a wardrobe. Built with React Native, Expo, and JavaScript.
- **Pantry Pals** – AI recipe assistant using Google's Gemini API, with an HTML/CSS front end and a Python/Flask/JavaScript back end.
- **Personal Portfolio Website** – Built an interactive portfolio with image sliders and animations using HTML, CSS, and JavaScript.

DESIGN WORK

- **Saints Action – Social Media Coordinator (2022–2024)** – Designed and managed social media posts and visual content, handling both creative direction and ongoing account management.
- **SHSM Arts & Culture Shirt Design** – Designed the official shirt for the school's Arts and Culture SHSM program.
- **Asian Heritage Month Artwork** – Created original artwork for school board-wide Asian Heritage Month recognition.
- **Paradigm Shift Logo** – Designed a logo for Paradigm Shift organization.

PUBLICATIONS

- **Improving Prediction of ADR in Elderly Patients Using Machine Learning Algorithms** – Investigated AI-augmented personalized medicine to improve elderly care through data-driven treatment plans.

HONORS & AWARDS

- **Third Place – STEM Fellowship Conference:** Won third place for a three-minute thesis presentation on AI-augmented personalized medicine for elderly care.
- **Specialized High Skill Major (SHSM) Seals:** Information and Communications Technology | Aviation and Aerospace | Arts and Culture

CERTIFICATIONS

- DELF B1 (French Language Proficiency)
- Innovation, Creativity and Entrepreneurship
- Multidimensional Health and Wellness Development
- Basic First Aid Training

VOLUNTEER EXPERIENCE

Mentor | *Girls Learn Lego NXT Robots*

Peterborough, ON • 2024

- Taught girls about women in STEM and guided them in building and programming Lego NXT robots.
